

Night Vision Monocula

SN: 5334001

The monocular is a 2+ gen (or XD-4, XR-5 by order) goggles/monocular unit with magnification of 1x (3.2x, 4x, 5x). The optics used in this monocular are of the highest quality bloomed lens type. A specially selected intensification tube enhances all images under all conditions. The body of the unit is strong, durable and light in use, being made of special light alloy. The design of the monocular prevents water ingestion, which allows the unit to be used in humid and heavy climatic conditions. Built into the body is an IR illuminator which allows you to view objects in full darkness.

By attaching of with bracket MK126 you get night vision sight that fully meets modern requirements. Type of mount: Weaver, Weaver with "set forward", Dovetail with "set forward", Lateral.
